

UNIVERSAL CAGE FOR RATS, SPINEY MICE & DEGUS

**MADE IN GERMANY
FROM STAINLESS STEEL**

**PLAY PEN FUN
ON 3 LEVELS**

**SLIDE GATE
AVAILABLE**

**REMOVABLE FAECES
TRAY**

Originally developed for spiny mice, our universal cage for rodents is becoming increasingly popular. This play pen can be individually adapted to all needs through the dividing slides. Whether large or small, all animals can be housed here. The individually attached ladders allow climbing fun on different levels. The rustproof stainless steel makes the investment durable and low-maintenance. Ladders, resting areas, feed containers and watering bottles can be arranged in different settings so that animal welfare remains always the focus. Of course, our play pen is compatible with our Uniprotect NG, so animals can be kept in a safe environment. All products that leave our house are deburred and can be used without any risks.

Dimensions: 720 mm x 522 mm x 1014 mm (BTH)

Item Code: 5033980

Optional Accessories
