

**[CUDDLE MAT]**

Originally developed by a working group at Charité, ZOONLAB took up the concept of the injection tunnel and developed a stainless steel version.

Durability and hygiene were key considerations, so all components are washable and autoclavable.

The **injection tunnel, including a cuddle mat**, is available under **order number 3131085**.

Additional **replacement mats** can be ordered under **order number 3131088**.

User experience shows that mice like to burrow into the cozy mat, making injections stress-free.

#### The injection tunnel offers:

- Protection and a place of retreat for the animals
- A cosy zone for injections
- High stability

As always, ZOONLAB focuses on animal welfare.

**Dimensions:** 140 x 100 x 111 mm (B x L x H) Ø 84,9 inside  
made of stainless steel

**order number:** 3131085

#### Optional accessories

additional mat
